Subject: RE: Gameplan on PRP?
PRP MASTER - Sep 19.pdf
PRP MASTER - Sep 19.docx

As discussed Jamie, here's clean PRP version with the following things I noted to you:

- accepted all your edits
- inserted the edited line re. Units on inside cover pg 2
- checking still w/ our Comms if we need ISBN or other numbers.. hopefully not but left the placeholders there
- didn't use capitals this line: "... *with exceptional help from state and provincial governments, ... public – include:*" for consistency
- made "Waters of the GLs" capital throughout for consistency
- replaced Fig 19 with those from our websites / given to me so we have rights to use w/o further follow-up

I also attached a pdf version to share with the IJC (that doesn't include those embedded source files for production). We'll likely share this version with our CDN federal and provincial GLEC members with the update that the final formatted version will be online likely by Fri / earlier.

Once we have the formatted version from you it'll have to go through GLEC Co-Chairs and our Comms will need to do a quick Federal Identity Review for things like logos but since I don't think we used any it'll be quick. I'm looking at the French translated text version now and will hopefully submit a translation request for the revised text.

Subject: Gameplan on PRP?

Just wanted to make sure we're on the same page... My thought is the PRP is in your hands for final edits, then you would flip it back to me ~noonish, and I would flip to contractor for final formatting. Sound right?
